## Org Details

### Background

In 2017 VYOMINI was founded by young women social activist to provide solution to social, economic and environmental challenges. It is registered under Company Section 8 as a not for profit entity. The first project launched by VYOMINI was Menstrual Health Management program at Jhajjar District of Haryana and Delhi Slums with 360 degree approach with 3As that is Awareness, Accessibility and Affordability of the MHM. With the passage of time development projects extended to other district of Haryana and also launched in different states of India. In a very short span of time 10 lakh women covered under MHM program. The impact created in two years become the life changer for founder and beneficiaries. In 2017 VYOMINI started employment generation program through capacity building workshop for underprivileged and marginalized section of the society, SHGs, NGOs.

Now we are deliberately working on entrepreneurship development program and Community Health. We are creating eco-system for the women economic & social upliftment through financial inclusion, livelihood training, entrepreneurship development programs, marketing, trading and manufacturing activities. We are committed to provide sustainable model to the society while keeping the theme "**Woman First Prosperity for All**". We strongly believe if women are keep at the forefront of development and if they

get opportunities to participate in the development process then there is no point that sustainable development goal is not achieved.

## Goals

### Facilitate Economic & Social Empowerment of Women

## Objective and Scope

- Provide Sustainable Sanitary Health across rural and urban India.
