VYOMINI SOCIAL FOUNDATION

Overview

Sanitation economies contribute a lot to the well being of all living things, poor sanitation contributes a lot to poor health conditions and increase the health expenses of vulnerable sections of the society, but right knowledge and timely intervention can help them to take right action and risk management.

VYOMINI provides 360 degree solutions for all sanitation hygiene related issues by its 3As approach that is Awareness, Accessibility and Affordability. We not only deliver awareness sessions but link the issue with entrepreneurship and help marginalized sections to become part of the sanitation economy.

Sanitation Hygiene Programs Covers

1. Menstrual Health Management.
2. Sustainable Sanitation Hygiene Practices.
3. Reproductive Health Awareness.
4. Sanitation Hygiene Products usage and handling.
5. Waste Management and handling.
6. Hardware for Sanitation.
7. Health Camp.
8. Manufacturing of Sanitation Hygiene Products.
9. Linkages with Govt schemes.

Specifications

VYOMINI SOCIAL FOUNDATION conducted Sanitation Hygiene programs at various locations , the purpose of these programs is to create awareness among low income groups regarding sanitation hygiene, so that they can practice sustainable sanitation with poor resources and can reduce their health budget.

Target Group

These programs organized with stakeholders, anganwadi workers, anm/health workers ,women group, sanitation workers, laborers/blue collar workers , NGOs , youth etc
